THE NATIONAL GUARD.

GENERAL ORTON WILL REGULATE THE REGIMENTAL BANDS.

Matters of Interest to Our Local Military Concerning Camp, Target-Practice, the Signal Service, etc.

The annual inspection and muster of the troops, which took place last Monday evening, gave great satisfaction to the officers and men of the respective companies, and to the brigade and regimental officers also. The ranks were fuller than for a number of years at such an event, and A and G, particularly, showed up grandly. A feeling of pride in their organizations takes possession of all when they turn out in such goodly numbers, and this is not confined to the military men alone, but reach our citizens, also. Keep it up, boys, at your weekly drills, and you will have occasion to be prouder still at your next muster.

The greater number of the rifles are unused for use, but this the Adjutant-General is looking after, and will remedy the earliest possible moment. Major Houghton, of the staff, inspected Company A at Nevada City, and speaks in glowing terms of that company. He thinks it is the best in California. Company F at Woodland, will be inspected by Major Sherburn this evening.

The signal corps of ten men will be mustered in as such immediately, and will be commanded by Major Sherburn, of the brigade staff, assisted by Lieutenant Kennedy, the regimental signal officer. Then will come the regular two corps in the corps. It will be \$25 per month, and in addition there is \$1,000 appropriated for an outfit, which General Orton will appropriate to that need.

The band will be mustered and practice twice in each year, and orders have just been issued for the first shoot, which will take place next month. The regiment can face the bands while in camp or at the ranges, and the brigade and regimental signal corps are ordered to practice on the 21st of August at the range in this city. The Inspector of Rifles Practise will superintend. The second part of September will be probably the latter part of September, and the men, in order to win medals, must make the average required at both trials, so that a man absenting himself will be entitled to a medal. In addition to the regular monthly silver badge will be given to the best shot in each company and brigade and regimental bands at the first range in August. Blank rewards have already been awarded to the various subdivisions in this brigade. The reward has resolved to go into camp at Santa Cruz this year, and will start August 17th. The last trial of the year has been fixed at \$50 per month, and orders of the military are to be sent out.

Some quiet manipulations on the part of the Legislature, no allowance for camp expenses was made for the field staff, non-commissioned staff, the corps, bands, etc., and the usual appropriation to bring the companies of a regiment to headquarters has been cut off entirely. This leaves the force only \$2,400, plus \$500 of citizens of Santa Cruz, who also provide the grounds, straw, water, etc. Funds will, therefore, be scarce, and the good work of the regiment will have to be inaugurated to carry on the camp successfully. This will have to begin with the boys' stomachs, which are supposed to be elastic, but are not; and if greater care is not taken, the men will not worse than the "tripe" cans of a few years ago. A saving can be made in "grub" and music by being gone only seven days, which will be the minimum time required. The regiment can leave on the 17th and return on the morning of the 25th (Sunday), and this would give them a day's rest before going to work on the following Monday.

General Orton is determined that before the bands get another opportunity to "strike" on the Fourth of July, they will be regulated. If no legislation is not made of the San Francisco musters, the bands must out every military band in the State, and have a new deal. The General has a good coating of war-paint on, saber drawn, and with little more he could be numerous about his wigwam, if the result of the court-martial does not suit him.

The new rules and regulations are being rapidly revised and will be shortly published. They will be strict, and will be welcomed by all. We understand they are gotten up with great care and with special attention to the wants of the Nation. The new "Orton" rule has already been changed and improved in others, which sentinels will do well to remember. It is that arms are to be "presented" to all officers. Heretofore only officers of the corps of engineers were entitled to a "present." This simplified matters very much for sentinels and will be welcomed.

The ten new companies will not be mustered in for a month or two years, and the South is endeavoring to get the lion's share of them. On account of the error in not providing for camp allowances for other than the bands, the new companies will have to be returned to the State Treasury—some seven or eight thousand dollars—as soon as they are used for any other purpose. It is for this reason, we know, nearly breaks the Adjutant-General's heart, when he needs the money for so many other purposes, tents and rifles for instance.

An election for Major of the regiment will take place at headquarters next Friday, the 26th. All field and line officers are entitled to vote. This is to fill the vacancy caused by the resignation of Major Fred Neary. Lieutenant M. H. Scott, of Company G, and Kennedy of the staff, are spoken of as candidates.

There will be no election in Company G for the same reason as for the other regiments. Captain Hall has been appointed as one of the Board of Examiners for the brigade.

The Signal Corps consists of the following: Sergeant C. C. Quinn; Corporals, Jessie C. Rodger and Guy Clark; Privates, Richard Quinn, Scott F. Ennis, Fred L. Martin, Henry P. Brown, C. Frothingham, Ira D. Woodward, William D. Bessey.

CITY SINNERS.

A Healthy Beggar Gets Eighty Days in the County Jail.

The Police Court presented its usual bustle yesterday morning. Tom Moses acknowledged that he had been drunk, but it being his first case in that court, he was dismissed for want of evidence.

The case of the party who gave the name of John Doe, charged with battery, was continued until Saturday next. It is said the fass occurred in a street car the other day.

William James was tapped for \$25 for disturbing the peace. The offense was not a serious one.

William Newham was found sleeping in a box-car, but as he was a railroad man and had work promised him, he was given his liberty.

William Mitchell was sent to the County Jail for eighty days for being a healthy beggar.

Mr. Miller was found guilty of disturbing the peace in the vicinity of Fifth and P Street. According to the testimony of the prosecuting witness, she repaid the neighborhood with such expressions as: "Chippy, get your hair cut," and "I'll fool you, Puff." The defendant had two children with her, and the court thought the better plan would be to suspend sentence indefinitely.

Theodore "Butch" Vantine.

At the afternoon session of the Police Court yesterday, the case of "Butch" Van Tine was first called, charged with robbery. The facts of the case, as claimed by the victim, a Chinaman, were published in the RECORD-UNION some time ago. The defendant claimed to have stood up against the charge, but was found guilty. The court adjourned to hear the defense, and after being struck in the face was puffed of several drops.

Washington Wants a Postoffice.

A petition is being circulated in the town of Washington across the river, which is to be presented to the proper authorities, asking that a postoffice be established in that town. The residents there are mostly Chinese. There is one little hovel that has sprung up, which will necessitate the taking of a new name for the town. Washington is the name of a village in Nevada county, which is a postoffice. If one is established in our neighboring town, it would necessitate a change of name.

Patched Up for One Season.

Painters and workmen are at work renovating the interior of the police-station building. The walls will be whitened, and the ceiling will be papered and plastered. Mats will be laid down in the hallway and back rooms.

MIRACULOUS ESCAPE.

Struck by a Thundering Train, and Comes Out Unhurt.

SANTA ROSA, July 18.—J. W. Hill of Dry Creek, Mendocino county, had a narrow escape of death yesterday noon. He was waiting for a street car at the place where the McDonald avenue line crosses the Southern Pacific track, and was struck by an incoming train, which can swiftly move at such a rate of speed. He was picked up insensible, but soon recovered consciousness, and the only mark he retains is a slight scalp wound. He says he had a hard time, but thought at first it was a street car and being in an unfamiliar place he could not make up his mind which way to retreat until it was too late.

San Diego's Chief of Police Accused of Being Bribed.

SAN DIEGO, July 18.—About a month ago the police raided a Chinese gambling den in Chinatown and captured forty of the gamblers in the very act of playing. They were driven to the city jail with an officer at the head of the column, and the Chinese who had been caught were released on an order to the Jailer to release them on a deposit of \$10 cash bail from each one, which was done.

Police Commissioner Rawson protested against this action of the Chief, claiming that that officer had no authority to order the gamblers cleared. The outcome of this action is the filing of a suit to the Chinese for the forfeiture of their bonds, and the Chinese claim that the Chief's action was without authority, and the developments expected to appear at the trial are causing quite a flutter of excitement in the public circles.

Before the trial Rawson protested agains this action of the Chief, claiming that that officer had no authority to order the gamblers cleared. A Sheriff's Reward for Kindness to a Criminal.

REP. BRYCE, July 18.—Edward Baker, charged with horse-stealing, was arrested within a mile of the British line, in Washington Territory, by Sheriff Vestal, of this county. The evidence against Baker was not strong, but he was released on \$2,000 bail and then left the State.

He was quietly arrested and handcuffed, having entered Redding, when he requested that he should be left off the train, knowing many on the train, and was refused. When he requested that the prisoner stepped out on the platform and jumped from the train, which was moving at the rate of twenty miles an hour, he was seen to fall and then repeat his fall and make his escape through the bushes.

He left the train at Hooker Switch, twelve miles above here, within two miles of his home.
